

Simulating The Future

ANSYS is committed to startups

Building virtual prototypes and putting them to the test with our industry-leading simulation tools will deliver your ideas to market rapidly and cost-effectively. You'll save time, money and increase your chance of success.

The ANSYS Startup Program provides entrepreneurs access to a broad range of ANSYS simulation software, bundled and priced to help you grow your business while stretching your funding further.

Our goal is to provide you with the best tools to grow your business to its fullest potential. Our software is the fastest, most accurate and least expensive way to bring your vision to light.

Many of the world's greatest companies began as startups and ANSYS is committed to partnering with today's startups to help them grow into tomorrow's industry leaders.

“I have not failed. I’ve just found 10,000 ways that won’t work.”

Thomas A. Edison
